

Dear Mr. Sieczowsky

On behalf of the Jewish Community of Milan please accept our personal 'thank you' for the decision to open the first Garden of Righteous, in Poland. These initiatives are so important to leave a memorial for young generations, about what happened in Europe, not long ago. And the teachment too, that also during a dark era the human species had been represented by unknown heroes. People that, despite the risk, battled themselves to save a human being. As it's written in the Torah, when you save a person, you save the world.
The Jewish Community of Milan
